

5 DAYS - 4 NIGHTS

**HARD CORE TROPICAL JUNGLE
TREK IN
UJUNG KULON NATIONAL PARK**

Ujung Kulon National Park houses a unique volcanic environment, the largest area of lowland rainforest in the Java Plain, and the last 60 Javan Rhinoceros in the world.

Join with us and we will give you the best & unique experience.

YOUR TREK TRAIL

There's nothing quiet and feel peace like seduced by the sounds of this breathing planet whether these sounds come from jungle creatures, distance gurgling river or beach waves. We believe this is a great way to rekindle our connection with the Nature.

Experience the real Javan rain forest. This tour will take you rather deep into the jungle! You'll stay overnight in different camps. On this trail, your "jungle eyes and ears" will be "trained" on various endemic plants, exotic animals and dominant bird-sounds. Hiking up and down hills, cross the river, mangrove forest, local village or even walking on the shore.

This 3D-2N trek will blow your mind with the pristine nature of the largest area of a lowland rain forest in the Java plain with approximately 45-50 km distance, and 5-6 hours walking per each day. The trek will start from Tamanjaya (Last point before Ujung Kulon National Park) and end up to Cidaon just right cross the Peucang Island (End Point).

THE RAINFOREST OF UJUNG KULON NATIONAL PARK

Biological Diversity

HOME FOR

Known as the first world heritage site by UNESCO in 1991. In-situ conservation of 700 plants with 57 species rare plants have ever record, 35 mammals including Javan Rhinoceros, Banteng, Sumatran dhole and Javan leopard, 5 primate, 270 avifauna, 59 reptile, 22 amphibi, 72 insects, 142 fishes & 33 coral reefs.
